Master of Science (MSc) in Human Kinetics
Emphasis on Motor Control and Learning

Gain Cutting-Edge Knowledge in Motor Control and Learning

The Professors: Your Dedicated Experts

Erin Cressman, Ph.D.
Sensorimotor control and adaptation

Yves Lajoie, Ph.D.
Motor control, cognition, gait & posture

Diane Ste-Marie, Ph.D.
Motor skill acquisition & performance

Tony Carlsen, Ph.D.
Neural contributions, brain stimulation techniques

Why choose uOttawa to study motor control and learning?

Expertise: Choose from professors with a wide-range of expertise

Equipment: Work with camera systems, robot technology and neurostimulation techniques

Opportunity: Work with researchers across multiple areas (team atmosphere)

CAREER OPPORTUNITIES

▶ Pursue doctoral studies
▶ Work for Statistics Canada or tri-council agencies
▶ Work with companies to survey public opinion on key national issues
▶ Work as a research project manager in a university or healthcare setting

Motor Control and Learning Students in Action

Students discussing their research during the School of Human Kinetics' Research Day
