Doctorate in Philosophy (PhD) Human Kinetics
Emphasis on Motor Control and Learning

Become an Expert in Motor Control and Learning Through Your Research

The Professors: Your Dedicated Experts

- **Erin Cressman, Ph.D.**
  - Sensorimotor control and adaptation

- **Yves Lajoie, Ph.D.**
  - Motor control, cognition, gait & posture

- **Diane Ste-Marie, Ph.D.**
  - Motor skill acquisition & performance

- **Tony Carlsen, Ph.D.**
  - Neural contributions, brain stimulation techniques

Why choose uOttawa to study motor control and learning?

- **Expertise:** Choose from professors with a wide-range of expertise
- **Equipment:** Work with camera systems, robot technology and neurostimulation techniques
- **Opportunity:** Work with researchers across multiple areas (team atmosphere)

CAREER OPPORTUNITIES:

- Pursue an academic career
- Work for Statistics Canada or tri-council agencies
- Work with companies to survey public opinion on key national issues
- Work as a research project manager in a university or healthcare setting

Motor Control and Learning Students in Action

Students discussing their research during the School of Human Kinetics’ Research Day
