## From the Vice-Dean's Corner:

The Research Office and your Research Committee (Shannon Bainbridge, ISHS, Eric MacIntosh, HK, Linda McLean, Rehab Sci, Krista Power, Nutr Sci, Janet Squires, Nursing) have worked hard this past year to deliver a suite of internal funding opportunities aligned with priorities identified by our community of researchers. We sought to make our limited Faculty dollars go as far as possible by designating matching contributions to funding awards already available through the Office of the Vice-President Research (OVPR), while at the same time, putting priority on funding gaps in the OVPR programs that are important to our researchers. The opportunities are described at the following link: <http://health.uottawa.ca/research/funding>, and are divided in three categories:

1. [Operational support](#)
2. [Knowledge dissemination and networking](#)
3. [Infrastructure support](#)

We welcome your feedback as we go forward in developing improved services to our community of researchers.

Warmest wishes,

*Jeff*
