FACULTY SUCCESS

SPOTLIGHT

Induction into the Canadian Academy of Health Sciences
Dr. Dawn Stacey

The School of Nursing along with the CHEO Be Sweet to Babies team has produced a new video targeted at staff, demonstrating the ergonomics of doing blood tests on babies while Mums are breastfeeding or holding babies skin-to-skin.

For more information please contact Denise Harrison

Sodexo and the uOttawa LIFE Research Institute join forces
See below for a related funding opportunity

Dr. Natalie Durand-Bush is named AASP president

GRANTS

FHS Open Access Publishing Funding
Michael De Lisio

FHS Strategic Grant Research Support
Erin Cressman
Krista Power
Angel Foster
Marijke Taks
Linda McLean

Congratulations !!!

TRI-COUNCIL OPPORTUNITIES

CIHR Canada-EU Smart Living Environments – Transitions in Care
Team Grant
Application Deadline: 2020-04-22

New Frontiers in Research Fund – Transformation Framework
Competition will be launched in October

SSHRC Partnership Engage Grants
Application Deadline: 2019-12-15

TRAINEE’S CORNER

Consortium National de Formation en Santé – CNFS – Volet uOttawa
*French only
Dissertation — Quatre bourses de 500 $
Date limite de présentation des demandes: 29 novembre 2019

Recherche
Maîtrise avec mémoire projet de recherche ou projet clinique
Trois bourses de 1 000 $
Date limite de présentation des demandes: 5 novembre 2019

Maîtrise avec thèse — Deux bourses de 1 500 $
Date limite de présentation des demandes: 5 novembre 2019

Doctorat — Une bourse de 10 000 $
Date limite de présentation des demandes: 5 novembre 2019

Internal Funding Opportunities

Open Access Publishing
Applications Ongoing

Conference/Workshop on Campus
Application Deadline: December 20

SSHRC Travel Grants
Faculty Application Deadline: October 15th

Emergency Fund for Minor Equipment Repair Program
Applications Ongoing

Strategic Reserve – Stand alone
Application Deadline: November 10

The Research Office: Dr. Jeffrey Jutai, Vice-Dean Research, Dr. AnneMarie Gagnon, Senior Research Advisor, Manon Danneau, Research Administrative Officer ssrecherche@uottawa.ca http://health.uottawa.ca/research_fhs Follow: @uOHealthRes
From the Vice-Dean's Corner:

Interdisciplinary research in the health sciences – what has been your experience? It has been more than a decade since a publication sponsored by the Canadian Academy of Health Sciences (CAHS) reported on the state of interdisciplinary research in the health sciences (IDHR; Hall JG, et al. A meeting of the minds: interdisciplinary research in the health sciences in Canada. CMAJ. 2006;175(7):763–71). The authors argued that universities should support and enhance IDHR, not only for the benefit of science, but also to meet the growing needs of industry and government for intellectual capital. Overt endorsement for this position has come from the CIHR and, more recently, the New Frontiers in Research Fund that was launched in 2018. The CAHS call to action has been echoed quite recently by authors who propose that many of the most pressing health challenges facing society are multifactorial and often require integrated contributions from social and political scientists as well as experts in the health sciences and technology (Gohar F et al. Driving Medical Innovation Through Interdisciplinarity: Unique Opportunities and Challenges. Front Med (Lausanne). 2019;6:35.) Some of these challenges are best addressed through “big interdisciplinarity” (e.g., between natural and social sciences) rather than “small interdisciplinarity” (Bridle, H. et al. Preparing for an interdisciplinary future: A perspective from early-career researchers. Futures. 2013;53,22–32). How well equipped are we at the University of Ottawa to support interdisciplinarity? For example, does the University offer the right mix of incentives and research facilities? What has been your experience? We want to hear from you please email fssrecherche@uottawa.ca with your comments.

Warmest wishes,
Jeff
