

uOttawa

LEES CAMPUS, 200 Lees Avenue

Participants wanted

Can you walk and chew gum at the same time???

Looking for participants 60-85 years for a study on multitasking

Participants needed to fill-out some short questionnaires on physical activity and cognition and they will be asked to walk with or without a simultaneous cognitive task. Participants will also complete a short interview on multitasking. Study duration depends on the participant, but approximately **60-90 minutes**.

Must be able to walk 15 meters without assistance
(walking aids permitted).

Exclusions for the current study: diagnosed hearing impairment, epilepsy, and severe motor limitations from pain (arthritis).
