From the Vice-Dean's Corner:

The research office needs your opinion and your ideas. In order to allow communication between researchers and note office, I would like to introduce members of our governance bodies essential for research in FHS. The Research Committee meets regularly and is responsible for exposing the perspectives of faculty researchers to strategic planning and decision-making regarding priorities and investments of research resources. Members of the **FHS Research Committee** are [Shannon Bainbridge \(Interdisciplinary School of Health Sciences\)](#), [Eric MacIntosh \(School of Human Kinetics\)](#), [Linda McLean \(School of Rehabilitation Sciences\)](#), [Krista Power \(School of Nutrition Sciences\)](#) and [Janet Squires \(School of Nursing\)](#). The **Shared Research Platform (RPR) representatives working group** is in development and is responsible for ensuring that faculty decisions regarding equipment, spaces and other platform resources are well-informed of needs, operational priorities and challenges of user groups. Three research platforms are described for each of the three main sectors (or themes). Industry leaders include [Yan Burelle \(LSBHD\)](#), [Julie Nantel \(SMSH\)](#) and [Wendy Gifford \(PSHD\)](#). The members of the RPR are as follows. **LSBHD:** [Pascal Imbeault \(Bioenergetics\)](#); [Nicholas Bordenave \(Food Biophysical Properties\)](#); [Keir Menzies \(Cellular/Molecular Biology, Biochemistry and Nutritional Biochemistry\)](#). **SMSH:** [Ryan Graham \(Human Performance Determinants\)](#); [Linda McLean \(Movement Analysis and Motor Control\)](#); [Christian Giguère \(Integrative Cognitive and Sensory Functions\)](#). **PSHD:** [Dave Homes \(Health Care Intervention Continuum\)](#); [Brad Young \(Behavior and Lifestyle\)](#); [Marijke Taks \(Sport Sociology and Governance\)](#). Our governance model can only succeed with your active participation as a researcher. Please discuss with your Research Committee and RPR representatives as necessary to assist them in their faculty work and enable the Faculty to manage resources and plan intelligently.

Best wishes for the summer,
