**GRANTS**

Dr. Angel Foster, Grand Challenges Canada, “Expanding access to safe abortion care through the community distribution of Misoprostol”

Dr. Chantal Laroche, Institut de recherche Robert-Sauvé en santé et sécurité du travail, « Effet de la perte auditive et du port de protecteurs auditifs sur la perception et la localisation auditive des alarmes de recul »

Congratulations!!
The Research Office: Dr. Jeffrey Jutai, Vice-Dean Research, Dr. AnneMarie Gagnon, Senior Research Advisor, Manon Danneau, Research Administrative Officer  fssrecherche@uottawa.ca  http://health.uottawa.ca/research_fhs

From the Vice-Dean’s Corner:
As we work together to promote a culture of research within the Faculty, we need leadership at all levels to set clear research goals and communicate them effectively. This year our office will look at how to better engage School and Program Directors in this effort. Developing a culture of research also requires open and collaborative personal relationships among faculty members. We expect that our efforts to be more strategic in our research planning, through the FHS Research Committee, and in management of our core resources, via our shared research platforms, will help develop these relationships. Due to limited resources to implement cultural change, we must be prepared to tailor allocations based on faculty members’ current motivations and abilities. The document, Building a Culture of Research: Recommended Practices, is provided to facilitate our conversation. We are looking for your suggestions for how our office could best work with School Directors and individual researchers to assess researchers’ needs and develop useful interventions. Best wishes,
